# SIVA
## OP-AMP FUZZ

- **'m' style op-amp fuzz**
- **9v DC (center-negative)**
- **140ma**
- **relay bypass (latching/momentary)**

## CONTROLS

**Gain:** Gain control

**Bass:** 3-band EQ - low end control

**Mids:** 3-band EQ - mid range control

**Treb:** 3-band EQ - high end control

**Level:** Output volume

**Blast:** Output volume (in Blast mode)

**1-8:** Clipping diode selector

## SWITCHING

**Engage:** Turn it on and off

**Blast:** Activate Blast mode

Features both momentary and latching switching, which means you can hold down one of the footswitches to temporarily engage an effect and then release it to return to normality.
